

GigLine Field Checklist

Pre-visit · On-site · Post-visit • Vince Lawrence • (336) 329-8899 • vince@giglinecompliance.com

1 — BEFORE YOU LEAVE

Prep (30 min night before)

- Re-read intake submission — flag 2–3 things to see firsthand
- Google the business — owner, tenure, any recent news
- Check Google Maps satellite view — buildings, storage, docks
- Confirm signed agreement matches tier you're walking
- Check weather — adjust outdoor portions if 95°F+ or rain

Documents to bring

- Signed service agreement (one copy to leave with client)
- Certificate of Insurance (COI) — some facilities require
- Walkthrough checklist / field template
- Business cards (2–3 minimum)
- Blank NDA (optional — for guarded clients)

Gear (non-negotiable)

- | | |
|-----------------------------------|---|
| ■ Hard hat | ■ Phone — full battery + portable charger |
| ■ Safety glasses + spare pair | ■ 25-ft tape measure |
| ■ High-vis vest | ■ Small flashlight |
| ■ Steel-toe boots | ■ Clipboard or iPad |
| ■ Hearing protection (foam plugs) | ■ Black pens (3+) |
| ■ N95 / disposable dust masks | ■ Notebook |

Don't bring: laptop, marketing handouts, opinions before you've seen the floor.

2 — ARRIVING ON SITE

First 5 minutes

- Park where they tell you — not the closest spot
- Sign in at front desk or guard shack (always)
- Ask for site-specific safety briefing before walking
- Put PPE on outside or in lobby, not on the floor

First conversation with owner / manager

- "Walk me through what you want me to look at."
- "Any specific concerns that prompted the call?"
- "Anything you want me to stay out of?"
- "Who should I not pull aside for questions?"
- Listen 10 min. Don't pitch. Don't reassure.

Set expectations

- "I'll be here ~2 hours. I'll take photos. Report goes to you — nobody else."
- "If I see something urgent, I'll tell you before I leave."
- "I won't interrupt production. I'll clear it with you before pulling operators aside."

3 — DURING THE WALKTHROUGH

Mental model

You're not auditing. You're pattern-matching — this floor vs. 25 years of floors. Find the 6–10 findings that matter. Don't flinch at what you see. Owner is watching your face.

Photos to capture

- Every cited issue — wide shot + close-up (2 photos min per finding)
- 5–10 context photos (aisles, storage zones, general layout)
- Positives too — clean LOTO stations, good eyewash, etc.
- Never photograph employees' faces (waist-down or from behind)

Document every finding

- 1-line description (e.g., "EP-3 panel ~50% blocked by cardboard")
- OSHA citation reference (clean up at office if uncertain)
- Severity: High / Medium / Low
- Recommended fix in plain language
- Owner's response if present ("Owner said temporary — verify 30 days")

Questions to ask operators (with owner's permission)

- "How long have you worked here?"
- "What's the most dangerous thing you do in a day?"
- "When was your last forklift refresher?"
- "Do you know where the SDS binder is?"

Areas commonly missed on first pass

- Electrical rooms / panels (90% of small ops have something blocking)
- Mezzanines and rooftop access
- Parking lot / loading dock (forklift-pedestrian interactions)
- Outdoor chemical storage
- Bathrooms (eyewash, PPE signage)
- Break rooms (food storage, blocked exits)

4 — WRAPPING UP ON SITE (10 MIN)

- "Here's what I saw. Top 3 before I leave so you're not waiting on the full report."
- Share 3 findings verbally, most urgent first. Specific. No jargon.
- "Anything I should know that I missed?"
- "Full written report to you within 48 hours."

- Hand business card. Shake hands. Leave.

Don't pitch additional services. Don't write the report at their kitchen table. Don't promise turnaround times you can't hit.

5 — AFTER THE VISIT (24–48 HRS)

Within 2 hours of leaving

- Back up photos to 2 places (phone + cloud)
- Type up handwritten notes while fresh (20 min now saves 2 hours later)
- Flag uncertain OSHA cites — look up before report lands

Report writing

- Lead with top 3–5 findings — prioritize by severity, not order observed
- Each finding: photo + 1-line desc + CFR ref + plain-language fix + priority
- End with 1-page "quick wins" (fix-by-Friday under \$500)
- Proofread twice. Then once more. Typos kill credibility.

Delivery

- Upload PDF via Admin Dashboard — auto-triggers client "Report Ready" email
- Do NOT email the PDF as attachment — use /report/{token} secure link

48 hours after delivery — send a text

"Hey [Name] — circling back on the GigLine report. Any questions as you read through it? Happy to jump on a 10-min call. — Vince"

Converts 15–20% of one-time walkthroughs into repeat engagements or referrals. Nobody else does it.

THE THREE RULES

- 1 Silence on the floor.** Walk. Look. Note. Owners interpret silence as expertise.
- 2 Plain language in the report.** "Move the cardboard" beats any OSHA citation verbatim.
- 3 Show up when you said you would.** On time. In uniform. COI in hand.
