Supervisor Instruction

Use this blank index to track Safety Data Sheets for chemicals used, stored, or handled at the facility. Each chemical listed on the Chemical Inventory Log should also appear here. Confirm the SDS version, physical location, verification date, and employee access.

Chemical / Product Name	Manufacturer	SDS Version / Date	Physical Location	Verified By	Date Verified	Notes

SDS Access Reminder

SDS must be readily accessible to employees during all work shifts. Electronic access may be used only if employees can access the SDS without delay.
