

LEFT BY VINCE LAWRENCE — FOUNDER

Sorry we missed you.

I stopped by to introduce GigLine — a Carolina-built safety consulting practice for small manufacturing, warehouse, and contractor operations in the Triad. I walk your facility the way an OSHA inspector would and put what I find in writing within 48 hours. CFR-cited. Photo-documented. Prioritized corrective action plan. Yours to keep. One engagement, no retainer, everything stays private.

- On the floor — not just in your inbox
- Findings ranked by penalty exposure, not opinion
- 25+ years inside manufacturing and warehousing
