Compliance Readiness Visit, Report

Client and visit information

FIELD	VALUE
Client legal name	[CLIENT LEGAL NAME]
Client code	GL-[CLIENT-CODE]
Facility address	[ADDRESS]
Primary contact	[NAME, TITLE]
Employees at this facility	[COUNT]
Primary operations	[BRIEF DESCRIPTION]
Visit date	[YYYY-MM-DD]
GigLine on-site	Vince Lawrence
Time on-site	[HOURS AND MINUTES]
Report date	[YYYY-MM-DD]

1. Purpose of this document

This report establishes the baseline condition of the facility's safety program as observed during the Compliance Readiness Visit. It is the starting reference for the Ongoing Safety Support engagement. Every subsequent monthly management summary compares against this baseline.

This report is not an OSHA audit, an insurance underwriting document, or a legal opinion.

2. What was reviewed

2.1 Areas of the floor walked

- ☐ Production
- ☐ Warehouse and receiving
- ☐ Shipping and staging

- ☐ Maintenance shop
- ☐ Utilities and mechanical rooms
- ☐ Break rooms and support areas
- ☐ Outdoor yards, loading docks, and pedestrian paths

2.2 Documents examined

- ☐ Written safety programs (list which):
- ☐ Training records (list scope):
- ☐ Inspection logs (list scope):
- ☐ OSHA 300, 301, 300A recordkeeping for the last three years
- ☐ Incident and near-miss reports for the last 12 months
- ☐ Prior GigLine reports or third-party audits, if any
- ☐ Contractor or customer safety questionnaires

3. Findings summary

SEVERITY	COUNT
Critical (immediate action required)	[#]
High (30-day action)	[#]
Medium (60-day action)	[#]
Low (90-day or program-level)	[#]
Total findings	[#]

4. Findings, in priority order

For each finding, use the block below. Copy and repeat as needed.

Finding [GL-CLIENT-YYYY-###]

- **Severity:** [Critical / High / Medium / Low]
- **Applicable standard or program:** [Reference]
- **Observation:** [Plain-language, one to two sentences. What was seen.]

- **Location:** [Specific area]
 - **Photo:** [Filename in secure folder]
 - **Recommended corrective action:** [What to do about it]
 - **Recommended target date:** [YYYY-MM-DD]
 - **Recommended owner role:** [e.g., Maintenance lead]
-

5. Program-level observations

Findings above are specific. This section captures the broader condition of the safety program.

- Written programs, coverage and currency:
- Training program, cadence and evidence:
- Corrective-action closure discipline:
- Management review rhythm:
- Recordkeeping quality:

6. Recommended 90-day priorities

Based on Sections 3, 4, and 5, GigLine recommends the following priorities for the first 90 days of Ongoing Safety Support:

1. [Priority]
2. [Priority]
3. [Priority]

7. What this report is not

- Not an OSHA-approved audit.
- Not a certification of compliance.
- Not a legal opinion or an insurance underwriting document.
- Not a guarantee that additional hazards or exposures do not exist beyond what was observed.

The employer retains full authority and responsibility for its workplace, employees, supervision, and compliance obligations.

8. Next step

The client and GigLine will review this report together and finalize the initial 90-day corrective-action tracker before the first Ongoing Safety Support service month begins.
