CORE ENGAGEMENTS

Service Details

Safety Walkthrough

From \$1,200*1–3 hours on-site · Report within 48 hours*

Photo-documented walkthrough of the physical floor. CFR-cited "Top 10 Fixes" report (RED / AMBER / GREEN) with estimated penalty exposure based on OSHA published maximums.

- On-site walkthrough (1–3 hours)
- Photo-documented hazard findings
- CFR citations + estimated penalty exposure
- Top 10 priority findings, RED / AMBER / GREEN
- Delivered within 24–48 hours
- Fixed quote before scheduling

Best for: Operations that want to know where they stand on the floor before OSHA, an insurer, or a customer auditor arrives.

OSHA Documentation Readiness Review

From \$1,300*Same-day on-site review · Audit report within 48 hours*

Structured review of written programs, training records, OSHA logs, and SDS compliance using a 53-item checklist across 7 OSHA categories.

- Written safety programs (LOTO, HazCom, PPE, EAP)
- Training records by employee and role
- OSHA 300 / 300A / 301 logs
- Inspection and maintenance records
- SDS inventory and compliance
- Compliance percentage score + prioritized corrective action sequence

Best for: Operations preparing for an audit, insurance review, or customer pre-qualification.

Compliance Readiness Visit (CRV)

From \$2,000

Combined walkthrough + documentation review · Report within 48 hours

GigLine's most-requested engagement. One on-site visit covering both the floor and the files. 18-page CFR-cited audit report. 90-day remediation tracker. 30-day check-in call.

- Full on-site walkthrough (2–4 hours)
- 53-item documentation audit across 7 OSHA categories
- 18-page CFR-cited audit report
- Single compliance percentage score (floor + files)
- 90-day remediation tracker, pre-populated
- "What to Say If OSHA Calls" guidance sheet
- 30-day check-in call
- Supervisor Safety Starter System (11 documents) included

***Best for:** Operations wanting one consolidated picture of both physical hazards and documentation gaps before they decide what to fix first.*

Incident Review & Corrective Action Support

From \$1,500

Same-week response · Time-sensitive

Post-injury or post-near-miss response. Root cause analysis, OSHA recordability determination, and a documented corrective action plan — reviewed before paperwork or outside conversations begin.

- Root cause analysis on-site
- OSHA recordability determination
- OSHA 301 completion
- Corrective action plan with documented closure
- Same-week scheduling
- Private engagement

***Best for:** Operations responding to a recordable injury, near-miss, or OSHA inquiry that need expert review before paperwork is filed.*

OSHA-Ready Control System

From \$4,500

60–90 days · Built to your operation

A defensible, organized safety control system: written programs, training matrix, OSHA log infrastructure, supervisor station cards, and a 12-month compliance calendar — built so the system survives turnover.

- CRV included as baseline
- All gap-flagged written programs built
- Training matrix by role
- 12-month compliance calendar
- Supervisor station cards installed
- Handoff training for the assigned safety lead

***Best for:** Operations that have already done a walkthrough or CRV and want the documentation organized into a system, not a binder.*

Document Development

**Quoted after
Documentation
Readiness Review**

2–6 weeks per program suite

Written programs scoped to your actual gaps and operation. Not a generic template pack.

Single written program	From \$350
LOTO program + up to 5 machine procedures	From \$650
LOTO program + 6–15 machine procedures	From \$1,200
Full written program suite (5+ programs)	From \$2,000

***Best for:** Operations whose Documentation Readiness Review surfaced missing or insufficient written programs.*

Quarterly Compliance Maintenance

\$950 / quarter

Recurring · Cancel any quarter

Keep the safety system current between annual walkthroughs. Light cadence — designed for small operations that do not generate a month of compliance work between visits.

- Documentation review
- Training record audit
- SDS inventory check
- Corrective action tracker review
- Brief site visit if changes warrant one

Best for: Operations that want the system kept alive after the Control System is built.

Annual Compliance Control Partner

\$12,000 / year (\$1,000 / month equivalent)

12 months · Highest-value engagement

An active compliance relationship — not a retainer that sits in a drawer. Standalone value of scheduled services exceeds \$7,600 alone; the additional \$4,400 covers the on-call relationship.

- Two Safety Walkthroughs per year (value \$2,400)
- Four Documentation Reviews per year (value \$5,200)
- Four Quarterly Review Calls (30 minutes each)
- OSHA 300A posting reminders
- Pre-inspection readiness review
- On-call access to Vince between visits
- Annual written management safety review

Best for: Operations with 25+ employees, multiple shifts, or recurring customer-audit requirements that want a consultant they can call.

INDUSTRY-SPECIFIC PACKAGES

Bundled Pricing by Operation Type

Each package below is a starting point bundled around the citations and program gaps most common in that industry. Final scope and pricing are confirmed in writing after a short call. Operations outside these categories are scoped à la carte using the "Core Engagements" section above.

Small Manufacturing

5–100 employees · single shift · 5,000–60,000 sq ft · machine guarding, LOTO, HazCom, PPE-driven.

Tier	Package	Starting Price
Starter	Walkthrough + HazCom Refresh	\$1,400
Best Fit	Compliance Readiness Visit	\$2,400
Premium	Annual Compliance Partner	\$12,000 / yr

Scope notes: Most-requested package. Pricing assumes ≤60,000 sq ft and ≤25 machines.

Warehousing & Distribution

10–150 employees · forklift-heavy · racking, dock, pedestrian-traffic exposure.

Tier	Package	Starting Price
Starter	Walkthrough + Forklift Records Audit	\$1,500
Best Fit	CRV + Forklift Program Buildout	\$2,800
Premium	Annual Compliance Partner	\$12,000 / yr

Scope notes: Forklift recertification calendar maintained inside the Annual Partner program.

General Contracting & Trades

Field crews · multi-site · OSHA 1926 construction standards apply in addition to 1910 on the yard.

Tier	Package	Starting Price
Starter	Yard Walkthrough + Doc Review	\$1,600
Best Fit	CRV + 1926 Written Program Buildout	\$3,200
Premium	Annual Compliance Partner (multi-site)	\$15,000 / yr

Scope notes: Multi-site engagements scoped per site; jobsite-trailer documentation included.

Fleet & Transportation Yards

DOT-adjacent · OSHA general industry rules apply to the yard, shop, and fueling areas.

Tier	Package	Starting Price
Starter	Yard + Shop Walkthrough	\$1,400
Best Fit	CRV (yard + shop + driver-room files)	\$2,600
Premium	Annual Compliance Partner	\$12,000 / yr

Scope notes: DOT compliance is separate; GigLine focuses on the OSHA-1910 surface area only.

Metal Fabrication & Welding

Hot work, hex chrome, respiratory, eye/face PPE, machine guarding-intensive.

Tier	Package	Starting Price
Starter	Walkthrough + Hex Chrome / Respiratory Screen	\$1,600
Best Fit	CRV + Respiratory Protection Program Buildout	\$3,000
Premium	Annual Compliance Partner	\$12,000 / yr

Scope notes: Includes fit-test record audit when respiratory program is in scope.

Food Manufacturing & Beverage

Wet floors, ammonia / refrigeration, sanitation chemicals, machine guarding around lines.

Tier	Package	Starting Price
Starter	Walkthrough + HazCom Refresh	\$1,400
Best Fit	CRV + PSM Readiness Screen	\$3,000
Premium	Annual Compliance Partner	\$12,000 / yr

Scope notes: Process Safety Management (PSM) deep-dive scoped separately for ammonia > threshold quantities.

Healthcare & Long-Term Care

Bloodborne pathogens, hazardous drugs, ergonomic / patient-handling, workplace violence.

Tier	Package	Starting Price
Starter	Walkthrough + Bloodborne Pathogens Audit	\$1,500
Best Fit	CRV + Workplace Violence Plan Buildout	\$2,800
Premium	Annual Compliance Partner	\$12,000 / yr

Scope notes: GigLine focuses on OSHA general industry — not state DHHS clinical licensure.

Auto / Diesel Repair & Body Shops

Flammable storage, isocyanates in paint booths, lifts, compressed gas, waste handling.

Tier	Package	Starting Price
Starter	Walkthrough + Paint Booth Review	\$1,500
Best Fit	CRV + Respiratory + Flammables Buildout	\$3,000
Premium	Annual Compliance Partner	\$12,000 / yr

Scope notes: Booth ventilation and respiratory fit-testing reviewed inside the CRV.

PRODUCTS · STANDALONE DOWNLOADS

Self-Serve Resources

Products are standalone — they are not service engagements. They are designed for operations that want documentation in place before scheduling a walkthrough.

Supervisor Safety Starter System — Digital

\$600

11 print-ready CFR-cited documents: written HazCom program, chemical and SDS indexes, training records, monthly inspection checklist, "If OSHA Shows Up" protocol, and supervisor station cards.

Supervisor Safety Starter System — Physical Kit

\$675

Adds the GigLine 2026 Triad OSHA Field Manual + direct contact card. Shipped to the operation.

2026 Triad OSHA Field Manual — Digital

\$49

Printable 60-page field manual covering the citations most often issued in the Piedmont Triad.

POLICIES

How GigLine Bills & Schedules

Fixed-quote pricing

Every engagement is scoped and confirmed in writing before scheduling. No hourly billing. No surprise invoices.

Travel

No travel charge within 60 miles of Winston-Salem, NC. Engagements beyond that radius are quoted with travel disclosed in advance.

Scheduling

Most walkthroughs are scheduled within 5–7 business days of the confirmed quote. Time-sensitive incident reviews can usually be scheduled same week.

Confidentiality

All engagements are private. Findings are not shared with OSHA, insurance carriers, or any third party without written client permission.

Returning clients

Follow-up walkthroughs for past clients are offered at a reduced rate. Ask when you book.

Payment

Invoice on completion. Net 15. Major card payments accepted via Stripe.
