

LEFT BY VINCE LAWRENCE — FOUNDER

Sorry we missed you.

I stopped by to introduce GigLine — a Carolina-built safety consulting practice for small manufacturing, warehouse, and contractor operations in the Triad. I walk your facility the way an OSHA inspector would and put what I find in writing within 48 hours. CFR-cited. Photo-documented. Prioritized corrective action plan. Yours to keep. One engagement, no retainer, everything stays private.

- On the floor — not just in your inbox
- Findings ranked by penalty exposure, not opinion
- 25+ years inside manufacturing and warehousing

SERVICES & STARTING PRICES

Safety Walkthrough

Starting at \$1,200

Floor walkthrough, written report in 48 hours. Best when you want fresh eyes on the floor.

Compliance Readiness Visit

Starting at \$2,000

Floor + files. Reviews written programs, training records, OSHA 300 log, and HazCom binder. Includes the Supervisor Safety Starter System.

Supervisor Safety Starter System

\$600 digital · \$675 physical

11 CFR-cited documents. Written HazCom program, SDS index, training log, inspection checklist, "If OSHA Shows Up" protocol. Standalone product.

Incident Review & Corrective Action

Starting at \$1,500

After an event. Documents what happened, what caused it, and what to do next. Filed correctly.

Fixed quote before scheduling. No hourly billing. No estimate ranges.
